

Explo-Logik Inc., a service company specializing in mineral exploration for over 10 years, is looking for today's and tomorrow's new talents to join its team. Do you crave adventure, new challenges, and the opportunity to be part of a dynamic family? Explo-Logik is for you! Join the adventure now!

We offer the most competitive pay in the industry, along with various benefits such as a comprehensive group insurance program and flexible schedules based on projects. Our model focuses on skill development, career advancement, close collaboration with management, and openness to new ideas, all enriched by a strong team spirit and a friendly atmosphere.

Job Title: Field Technician

Job Description:

- Work in compliance with procedures, established guidelines, or under geologists' supervision.
- Comply with occupational health and safety regulations.
- Follow work directives and maintain a clean work environment.
- Conduct environmental inspections at work sites, including drilling, stripping, and logging, and keep a record.
- Align drill rigs using the required instruments.
- Perform health and safety inspections at drilling sites and maintain records.
- Conduct geochemical exploration, including soil and stream sediment sampling.
- Perform field prospecting.
- Identify new mineralized zones.
- Perform stripping and various sampling activities.
- Accurately control GPS positioning.
- Understand and apply standards related to UL ECOLOGO certification.

Requirements:

- Minimum of one year of experience.
- Strong team spirit.
- Open-mindedness, courtesy, and a strong sense of responsibility.
- Resourcefulness and autonomy.
- Availability for varied work schedules.
